Placement office markets products of higher education

Bowling Green, as an institution of higher education, has a product to sell—its graduates. Marketing these graduates is the job of the University placement office, according to James Galloway, director.

Galloway said that job is made easier because Bowling Green students are generally well-prepared, fairly mobile and have realistic goals.

He said the demand for this kind

of marketable student is reflected by the large number of recruiters who visit the campus each year.

Galloway predicted approximately 1,000 recruiters will visit the University this year, more than any other university in Ohio.

He added that the placement office usually welcomes 10-15 recruiters daily, and each of those recruiters interviews about a dozen students. Last year, approximately 800 recruiters conducted more

than 8,000 interviews.

Galloway said that because almost 80 percent of the University's seniors and graduates use the employment services available in the placement office, the primary objective in placing these students is "keeping one step ahead of the game" by finding as many job opportunities as possible for them.

He noted that although about 75 percent of the recruiters are from

business areas, hiring in the education field also has increased.

"The market for teachers this year will be excellent," Galloway said. "Graduating education majors can almost be assured of a job."

"On the other hand, there is a growing chance that certain fields of business administration will become overcrowded, as education has traditionally been," he said. He added that according to a five-year job forecast study completed by the placement office last year, newly developing fields include energy and agricultural research, recreation and computer technology.

Galloway said important factors in the operation of the placement program are the University's strong reputation and an efficient, well-trained staff.

"Bowling Green has one of the best physical layouts of any university placement office around," he said. "Our relaxed, informal atmosphere attracts recruiters and students."

Galloway said the placement office also attracts students through many seminars offered which teach effective interviewing techniques, how to write a resume and how to make responsible career decisions.

In addition to orientation cassettes and training films, the placement office has new videotape equipment which enables students to observe their own performance in a mock interview situation.

PRACTICE MAKES PERFECT — New videotape equipment in the University placement office allows students to see their strengths and weaknesses in a mock interview situation, improving their chances for making a good impression in an actual job interview. Skip Reardon, assistant director of the placement office, operates the equipment.

Beating the odds

Pre-med, dental students do well in competitive field

Students who seek admission to medical and dental schools know the meaning of competition.

Last year, fewer than half of the 36,000 applicants to medical schools in the United States were accepted, and students who sought entry to dental schools faced even greater chances for rejection.

Despite these national odds, Bowling Green has been able to place 85-90 percent of its pre-medical and pre-dental students in professional programs during the past several years.

Although the number of students placed is not high (an average of 20 per year), the percentages attest to the quality of student which Bowling Green produces, according to Carl Hallberg, biological sciences, and Peggy Hurst, chemistry, advisers for the pre-med and pre-dental programs.

"One thing our success rate says for Bowling Green is that we have excellent instruction in the sciences for students who have the ability to take advantage of it," Dr. Hurst said.

Dr. Hallberg refuted the commonly-held notion that medical and dental schools tend to "admit their own" before accepting students from other

colleges and universities.

"Medical school is competitive," he said. "Schools are going to take the best applicants they can get."

He added that Bowling Green has traditionally felt a responsibility to turn out the very best pre-med and pre-dental students.

"Medical schools must respect the integrity of our preparation program," he said. "We cannot issue inflated grades and watch our students fail in the rigorous professional programs. We have a good reputation to uphold."

He added that a number of Bowling Green's graduates have finished first in their medical and dental school classes, and he could not recall any student in recent years who did not complete his training.

Dr. Hallberg noted that although the University has not attempted to recruit students for its pre-med and pre-dental programs in past years, there are now approximately 180 students in the pre-med program and another 90 in pre-dentistry.

This year, University recruiters are actively seeking students for both programs as part of a University-wide attempt

to attract top quality students.

Although requirements for admission to dental and medical schools channel most students in Bowling Green's pre-med and pre-dental programs into a chemistry or biology major, Dr. Hallberg said there is no preferred major for admission to a professional school.

In fact, one advantage of Bowling Green's preparation program is its strong emphasis on English, the social sciences and humanities, he said. "We feel it is our responsibility to teach these potential physicians and dentists how to deal with people. You don't have time to get that kind of training once you are in med school," he said.

Dr. Hallberg did point out that Ohio residents who apply to Ohio medical and dental schools have an advantage over students from other states because the state has six medical schools and two dental schools which admit high percentages of state residents.

The medical schools are located at Ohio State, Case Western Reserve, Wright State and Northeastern Ohio universities, the University of Cincinnati and Medical College of Ohio. The two dental schools

are at Ohio State and Case Western Reserve.

Both Dr. Hallberg and Dr. Hurst emphasized, however, that a major responsibility of the University to its pre-med and pre-dentistry students is to prepare them for graduate school or a career in industry, government or teaching should they fail to gain entry to a professional school.

"We have always emphasized that a student needs to be prepared to do something else if he doesn't get in (to medical school)," Dr. Hurst said.

Commencement scheduled Dec. 15

An estimated 558 students will receive diplomas at winter quarter commencement exercises scheduled to begin at 10 a.m. Saturday, Dec. 15, in Memorial Hall.

The total includes 159 graduate students and 339 undergraduates, including 13 from the Firelands campus.

Last year diplomas were awarded to approximately 520 students at the winter quarter commencement.

WILLIAM BREWER

Trading 'chairs'

Former executive heads technology program

His desk and pay check are not as large as they were before, but William Brewer, School of Technology, has decided at age 50 that these things are not the primary measures of success.

Brewer, former vice president of the Kuhlman Corporation, Toledo, has joined the faculty of the School of Technology and now serves as chair of the construction-design area of the school. He also is acting chair of the school's new aerotechnology program.

"Teaching is something I've been interested in for a long time," Brewer said, explaining his mid-life career change. "Even though I had been successful in industry, I did not really feel fulfilled as far as really helping people on a face-to-face basis."

Although he has been a full-time faculty member only a few weeks, he says one of his favorite tasks is student advising.

College teaching is nothing new to Brewer, who has been a part-time instructor at the University of Toledo and Ohio Northern University since 1957. In the past 20 years, he has taught 43 different courses,

ranging from algebra to construction scheduling.

While an undergraduate at the University of Toledo, Brewer considered teaching as a profession. He graduated in 1951 and then pursued a master's degree in engineering science at Toledo.

"Later, I took a few education courses, but most of what I have learned about teaching has been through watching and listening to other teachers," Brewer said.

Prior to his association with Kuhlman, Brewer was executive vice president of K-Krete, Inc., a company formed jointly by Kuhlman Corp. and the Detroit Edison Co. While associated with K-Krete, he was responsible for the organization, development and research of K-Krete mixes in the United States and Canada.

He also has worked as an engineer with the Portland Cement Association and A.L. Bentley and Sons, Toledo.

"Working in education is quite a change from industry," Brewer observed. "The pace is not as hectic. There is still plenty to do, but I'm not running in so many different directions."

'Hotline' will assist carpoolers after Jan. 1

Faculty, staff and commuter students will have the opportunity to "double up" to and from work after Jan. 1 as a result of a survey taken in October on carpooling preferences.

According to William Bess, director of Campus Safety and Security, more than 100 people responded in favor of carpooling in a brief survey circulated by the office of the vice president for operations. Another 250 people said in the survey they already were riding in a pool of three or more.

Bess said interest in a University-coordinated carpooling service was sufficient to warrant getting it underway after the first of the year.

At that time, a carpooling "hotline" (372-2779) will be put into operation so that people interested in combining for a ride will be able to locate others in their geographic areas with the same interests.

Bess said a list will be kept by the hotline operator, but people will be responsible for forming their own driving units.

The carpooling effort is part of the University's energy-savings program. As incentive to participate in the gasoline-conserving measure, vehicles utilized in carpooling will be granted preferential parking privileges.

Bess said stickers will be made available to owners of vehicles used in a carpool and a card will be issued to the driver of the vehicle which will enable that car and

driver to park in special lots designated strictly for carpoolers.

An attempt is being made now to determine where on campus the majority of people interested in carpooling are working, and the preferential parking spaces will be assigned in lots in those areas, Bess said.

"We expect the whole idea of carpooling to catch on as the gas situation grows worse and as people see how it is working for others," Bess said.

He added, "It definitely will represent a cost-savings to those who participate."

H&CS College earns national recognition

Joseph K. Balogh, dean of the College of Health and Community Services, has been invited to speak about the College's unique organization at a meeting March 7 of the American Association for Higher Education in Washington, D.C.

Last February, Dr. Balogh entered the College program in competition sponsored by the Academy for Educational Development designed to recognize outstanding academic programs which are educationally innovative and creative. Twelve \$10,000 prizes were awarded in that competition.

"We did not receive a cash award," Dr. Balogh said, "but the invitation to speak before the American Association for Higher Education means more to us than any money."

The invitation came from Sidney Tickton, vice president of the Academy for Educational Development, who told Dr. Balogh "we are inviting you now because we felt your program was outstanding."

"This is the best thing that has ever happened to this College, and the amazing thing is that we have received this recognition after operating only five and a-half years," Dr. Balogh said. "This will be good publicity for the University as we enter the 1980's. It couldn't have come at a better time."

Dr. Balogh said his presentation would be published and also made available to other schools on cassette tape.

"In the next 10 years, we expect many schools to pattern their organization after our College," Dr. Balogh said. "We already have had one inquiry from the University of Rhode Island."

The presidents of two other schools, Miami Dade Community College and Coastline Community College in California, have also been invited to speak at the March conference. Coastline College also did not finish in the top 12 in the recognition competition.

"In essence, you can say that Bowling Green finished in the top 14 of 275 universities and colleges who submitted programs in the competition," Dr. Balogh said. Other schools which entered included Miami, Toledo and Ohio State universities, the University of Alabama, Georgetown, Rutgers, Dartmouth, Harvard and Baylor universities.

Monitor

Monitor is published every two weeks during the academic year for faculty and staff of Bowling Green State University. Deadline for the next issue, Jan. 7, is Wednesday, Jan. 2.

Graduate students receive funds to present papers

Twelve graduate students have received financial assistance this quarter from the Professional Development Award program to present papers at national professional conferences.

Recipients of the awards this quarter were **Mary Kay Platte**, radio-tv-film, to present a paper on "The Hauptmann Trial: Was It a Media Circus?" at the Speech Communication Association meeting in Columbus;

Dave Egan, psychology, to present a paper on "Improving Eyewitness Identification: An Experimental Analysis" at the American Psychology-Law Society Conference, Baltimore;

Arthur Rose, psychology, to present a paper on "The Effect of Destination Predictability on Five-year-olds' Judgements of Relative Speed" at the 20th annual meeting of the Psychonomic Society, Phoenix;

Stephen Rizzo, communication disorders, to speak

on "Influence of Ear Canal Air Pressure on Acoustic Reflex Threshold" at the annual convention of the American Speech and Hearing Association, Atlanta;

Gary Bemon, biological sciences, to present a paper, "Commentary on the Ecology of an African Bovine Beetle Community," at the annual meeting of the Entomological Society of America, Denver;

Nancy Fiedler, psychology, to speak on "The Application of Behavioral Techniques in a Community Action Program" at a meeting of the Association for the Advancement of Behavior Therapy, San Francisco;

Frederick Simmons, communication disorders, to present a paper on "The California Consonant Test in Hearing Aid Evaluation" at the American Speech and Hearing Convention, Atlanta;

Bart Ferraro, psychology, to speak on "Automaticity in

Echolalic Behavior as Measured by Response Latency" at the American Speech and Hearing Convention in Atlanta;

Patricia Froelich, biological sciences, to present a paper on the "Influence of Perinatal Thiouracil on Growth Hormone and Weight Gain" at the annual meeting of the American Society of Zoologists, Tampa;

Ann DeBodt, mathematics, to speak "On Semigroups Admitting Ringstructure" at the annual meeting of the American Mathematical Society, San Antonio;

Tim Margush, mathematics to speak on "Distances Between Trees" at the annual meeting of the American Mathematical Society, San Antonio;

Todd Feil, mathematics, to speak on "An Uncountable Tower of e-group Varieties" at the annual meeting of the American Mathematical Society, San Antonio.

Faculty

Grants

David Elsass and Patricia Mills, education, \$285,372 from the Ohio Dept. of Education to effect compliance with new teacher education standards set by the state.

Robert Guion, psychology, \$7,500 from the ARMC Foundation to continue research on validity generalization. Dr. Guion is studying the characteristics of people, tasks and work situations which may extend or limit generalizations of the results of personnel research.

Chan Hahn, management, \$2,000 from the Small Business Administration to continue a program which allows the University to provide management counseling and technical assistance to local small business concerns.

William B. Jackson, environmental studies, \$30,155.82 from Elli Lilly and Co. to study an experimental rodenticide.

Tom Klein, English, **Michael Moore**, history, and **Jack Nachbar**, popular culture, \$4,500 from the Association of American Colleges. The grant is a quality and liberal learning award given in recognition of strength in liberal education.

It will be used to sustain the humanities cluster college, now in its eighth year, and will cover expenses for textbooks, travel, consultants and films for students who enroll during the winter quarter.

The theme for the cluster college this year is "Approaches to Value in a Technological Culture." That theme has been revised from past years in the interest of recruiting students who are more vocationally oriented.

Walter McKeever, psychology, \$28,378 from the Public Health Service, Dept. of Health, Education and Welfare, to continue his study aimed at identifying and clarifying various brain functions in righthanded and lefthanded persons. The study is in its eighth year.

Fred D. Miller Jr., philosophy, \$980 from the Ohio Program in the Humanities to fund an essay writing program for area high school students.

Ronald Russell, home economics, \$28,889.10 from the Ohio Dept. of Education to provide training of teachers in home economics in accordance with the state training plan.

Donald Saleh, financial aid, \$25,300 from the Law Enforcement Assistance Administration to support students currently employed in the criminal justice field, criminal justice majors and students in related fields.

Duane Tucker, WBGU-TV, \$13,500 from the Northwest Ohio Educational Television Foundation to produce a 60-minute, color television program entitled "Television Inservice for Secondary Art Teachers."

Morris Weinberger, education administration and supervision, \$1,500 from the University Center for Personal Development to support a values conference held on campus during November.

Publications

Richard Burke, educational foundations and inquiry, "Throw Out Those Negatives!", an article on positive reinforcement, in the November issue of "American Secondary Education."

In the same issue of the journal is an article by **Verlin Lee**, education curriculum and instruction, and **Fred Pigge**, education research and services, on "The Needs and Proficiencies of Secondary Teachers, as Noted by Their Principals."

The journal is edited by **Bill Reynolds**, education administration and supervision, with assistance from **Trevor Phillips**, educational foundations and inquiry, and **Joanne Martin-Reynolds**, education

curriculum and instruction.

Kenneth Craycraft, **Jacquelin Stitt**, **Larry Wills** and **Sheila Wineman**, education curriculum and instruction, "Principles of Social Studies: The Why, What and How of Social Studies Instruction," a social studies text to be published this month by the University Press of America.

Richard Gargiulo, special education, and **Fred Pigge**, education research and services, "Perceived Competencies of Elementary and Special Education Teachers" in the August issue of "The Journal of Educational Research." The article is based on a study of University graduates.

Alex Johnson, special education, "The Principal's Role in Mainstreaming," in the September issue of "Ohio Elementary Principle."

Janis L. Pallister, romance languages, and **Ramona Cormier**, associate provost, "Waiting for Death: The Philosophical Significance of Beckett's 'En attendant Godot,'" published by the University of Alabama Press.

Thomas D. Reardon, placement services, "What Kind of Companies are Students Buying (Into)?" in the winter, 1980 edition of "The Journal of College Placement."

Wei Shih, applied statistics and operations research, "A General Decision Model for Cost-Volume-Profit Analysis Under Uncertainty," in the October issue of "The Accounting Review."

Recognitions

Theodore Berland, journalism, was elected vice president of the American Medical Writers Association at a recent meeting in Kansas City.

Don Bright, business education, recently attended the 1979 National Council Meeting of Delta Pi Epsilon, national honorary professional graduate fraternity in business education, in Nashville, Tenn.

Dr. Bright attended the council meeting as the chief delegate of the fraternity's chapter at Bowling Green.

Gregory T. DeCrane, student organizations and new programs, has received a Leadership Award from the National Hemophilia Foundation.

DeCrane was recognized for his role in developing, organizing and supervising the nation's first "tipover tournament" of domino-like blocks to raise money for the Foundation. The event raised approximately \$300 in pledges for the Northwestern Ohio Hemophilia Foundation.

Richard H. Lineback, philosophy, attended the White House Conference on Library and Information Services Nov. 15-19 at the Washington Hilton Hotel.

Dr. Lineback was the official representative of the National Federation of Abstracting and Indexing Services, of which he is president.

The major themes for the White House Conference were library and information services:

- For meeting personal needs;
- For enhancing lifelong learning;
- For improving organizations and the professions;
- For effectively governing our society;
- For increasing international understanding and cooperation.

Edward E. Morgan Jr., assistant dean, College of Health and Community Services, was elected president-elect of Alpha Eta Society, the national scholarship society in allied health, at the recent national meeting of the society in Colorado Springs.

Larry Wills, education curriculum and instruction, has been appointed to a three-year term on the Teacher Education and Certification Committee of the National Council for

Social Studies.

The committee recommends policies to state departments of education regarding the preparation of elementary and secondary social studies teachers.

Presentations

Mary Amos, library and educational media, spoke on storytelling and the cataloging of audio-visual materials at the Oct. 22 Northwest Ohio Education Association In-Service Day at Clyde.

On Oct. 24 she gave a presentation on library/media centers for an in-service day at the Findlay City Schools.

She also attended the Anglo-American Cataloging Rules 2 Workshop at the University of Michigan Oct. 5-6 to compare the new edition of rules with the previous code.

Thomas Bennett, educational foundations and inquiry, **Leigh Chiarelott** and **Daniel Tutolo**, education curriculum and instruction, presented a symposium on "Critical Reading from Three Points of View: Child Development Specialist, Curriculum Specialist and Reading Specialist" at the Great Lakes Regional Reading Conference of the International Reading Association Oct. 18-20 in Detroit.

Cary R. Brewer, registrar, and **Duane E. Whitmire**, assistant to the registrar, co-chaired a presentation at the Nov. 7-9 meeting of the Ohio Association of Collegiate Registrars and Admissions Officers in Cincinnati.

Lois Cheney, speech communication, spoke Nov. 2 to the Northwest Ohio Preschool Nutrition Council on "Non-Verbal Communication."

Robert Freeman, special education, spoke on "Working with the Retarded Today: One Person's Analysis and Hopes" at the annual state convention of the Ohio State Professional Association for the Retarded in Columbus Nov. 2-4.

His talk was the opening address for the three-day meeting.

James L. Galloway, placement services, spoke on "Teacher Supply and Demand in the 80's" at the Nov. 14 Ohio School Boards Association Capital Conference in Columbus.

Galloway is a member of the Bowling Green and Penta Tech school boards.

Robert A. Holmes, legal studies, spoke on "Affirmative Action in the Employment of the Handicapped" at a meeting of the Governor's Committee on Employment of the Handicapped during October in Toledo. Dr. Holmes was the keynote speaker at that meeting.

Also in October he spoke to the National Association of Accountants in Toledo on "The Role of Accountants in Affirmative Action Compliance."

He also spoke on "Legal Issues for Purchasing Agents—The Uniform Commercial Code" at an October meeting of the Marathon Oil Company's Purchasing Managers Association.

Melvin Hyman, speech communication, presented an in-service workshop on "Myofunctional Therapy" to speech-language pathologists in the Toledo area on Nov. 4.

Margaret Ishler, education curriculum and instruction, spoke on "Understanding Verbal and Nonverbal Behavior" at the Oct. 15 Hancock County In-Service Day at Van Buren High School.

Janet Lewis, home economics, spoke on "Nutrition and the Athlete" at the same meeting.

Richard E. Messer, creative writing, spoke on imagism and contemporary poetic theory at a meeting of the Canton Poetry Society and Canton Writers' Guild Nov. 9.

Edmund F. Pawlowicz, geology, attended the 49th international meeting of the Society of Exploration Geophysicists Nov. 4-8 in New Orleans, La. Theme for the meeting was "Geophysics—Vanguard of Exploration."

Neil Pohlmann, education administration and supervision, spoke on "Teacher Liability" and "School Law" at the Oct. 26 in-service day for Wayne County educators.

He was the moderator of an open forum on "Understanding Student Stress" at the 24th annual Ohio School Board Association's Capital Conference Nov. 12-15.

Robert L. Perry, ethnic studies-sociology, and **Ernest A. Champion**, ethnic studies, spoke on "Ethnic Studies and the World Community" and "Ethnic Studies: Key to International Understanding" at the seventh annual National Conference of the Society of Ethnic and Special Studies Oct. 17-20 in Los Angeles, Calif.

Diane G. Pretzer, romance languages, participated in a discussion on Enrique Anderson Imbert, contemporary fiction writer and literary critic from Argentina, at the annual meeting of the Midwest Modern Language Association.

She was elected by the Spanish-American Literature Section as secretary for 1980 and chair for 1981.

Michael W. Pustay, economics, spoke on "Utilization of ICC Operating Rights Prices to Evaluate Regulation" at the June meeting of the Western Economic Association in Las Vegas, Nev.

James Sharp, space and conference arrangements, attended the Conference Services Workshop sponsored by the Conference Services Committee of the Association of College and University Housing Officers Oct. 28-31 at Sam Houston State University, Huntsville, Tex.

At the workshop he presented two sessions on "University/Off-campus Relationships in the Conference Business."

Don C. Steinker, geology, received a Faculty Development Committee Speed Grant to attend a workshop on "Geowriting for Results" Nov. 3 and 4 in San Diego. The workshop was sponsored by the American Geological Institute and covered various aspects of writing and publishing.

He also took part in the annual meeting of the Geological Society of America in San Diego Nov. 5-8.

Jack Ward, Instructional Media Center, spoke on "The Use of the Overhead Projector in the Classroom" at the Oct. 22 in-service day for teachers sponsored by the Northwest Ohio Education Association in Clyde.

Richard Ward, management, and **Robert Holmes**, legal studies, spoke on "Validation Strategy, Job Analysis and Alternative Selection Devices Mandated by New Federal Uniform Employee Selection Guidelines" at the Nov. 13 meeting of the Miami Valley Personnel Association in Dayton.

HPER program has record enrollment

A record 28 children are enrolled this quarter in a physical education activity clinic for exceptional children, directed by **Dolores Black**, School of HPER.

The clinic, begun by Black in 1974 as an aid to blind children, this quarter serves handicapped individuals ranging in age from seven months to 21 years. The children are either cerebral palsy victims, mentally retarded, intellectually gifted or blind.

Black, a graduate assistant and 45 undergraduates operate the Saturday clinic.

BRIEFING THE REGENTS — Provost Ferrari informed members of the Ohio Board of Regents of recent events at the University when they visited the campus Nov. 15, one day prior to their meeting at Owens Technical College. While in Bowling Green, the Regents also toured the campus and several facilities.

Dedication concerts set in Kobacker, Bryan halls

The first in a series of dedication concerts for the 850-seat Kobacker Performance Hall in the new Musical Arts Center has been scheduled Sunday, Dec. 9.

A performance of Handel's "Messiah" by the Collegiate Chorale, directed by Ivan Trusler, music performance studies, will be the first scheduled event in the hall, named in recognition of a major contribution to the new Center by Lenore and Marvin Kobacker, Toledo. The "Messiah" performance will begin at 4 p.m.

Three February events are included in the dedication series. They are the annual Broadway Revue at 3 p.m. Feb. 3; a concert by the Symphony Orchestra at 3 p.m. Feb. 10 and a Symphonic Band concert at 8 p.m. Feb. 21.

Also scheduled in the dedication series are a performance by the Jazz Lab Band I at 8 p.m. March 1, and three performances of the opera "Cinderella" at 8 p.m. March 7, 8 and 9.

The Marian McPartland Trio is scheduled to perform at 3 p.m. April 20.

When/Where

Exhibits

Holiday display and mini concerts, noon and 12:40 p.m. daily through Dec. 7, main lobby, Musical Arts Center.

School of Art Faculty Exhibition, 8 a.m. to 5 p.m. weekdays, 2-5 p.m. Saturdays and Sundays, through Dec. 9, Fine Arts Gallery, School of Art.

Music

Stephen Montague, composer-pianist, 8 p.m. Tuesday, Dec. 4, Bryan Recital Hall, Musical Arts Center. He will present a program of new European music, including a multimedia presentation.

Teresa Escandon, concert pianist, 8 p.m. Wednesday, Dec. 5, Bryan Recital Hall, Musical Arts Center.

Michele Johns, organist at the Bethlehem United Church of Christ in Ann Arbor and co-founder of the Ann Arbor chapter of the American Guild of Organists, 8 p.m. Wednesday, Dec. 5, organ seminar room, Musical Arts Center.

Lectures

Theodore Reyman, Detroit pathologist, "Pathology Associated with Schistosomal Cirrhosis in Egyptian Mummy Tissue," 4:30 p.m. Thursday, Dec. 6, 112 Life Sciences Building. At 7:30 p.m. he will host an informal gathering in 525 Life Sciences Building

At 3 p.m. on April 27 the combined choruses and orchestra will perform major works by Ralph Vaughan-Williams.

The dedication series will conclude with a performance by the Cleveland Symphony Orchestra, directed by Lorin Maazel, at 2 p.m. May 4.

There will be a charge for all performances in the dedication series.

Kobacker Hall features a huge stage with an orchestra pit that can be raised or lowered by a hydraulic lift. Seating is on three levels: a main floor and a unique arrangement of two suspended balconies.

The dedication series for Bryan Recital Hall, the most heavily used performance area in the new \$9 million Musical Arts Center, began Oct. 14 with a performance by the University's String Trio, Woodwind Quintet, Brass Quintet and pianist Jerome Rose.

Other dedicatory performances scheduled this quarter were by the Lucktenberg Trio and the University String Trio.

The next scheduled dedicatory concert in the Bryan Recital Hall is by the Brass Quintet at 3 p.m. Jan. 27.

Remaining events in the series include performances by Swanee Alley at 8 p.m. Feb. 1; the New Music Ensemble, 8 p.m. Feb. 25; the Woodwind Quintet, 8 p.m. April 16, and the Da Capo Chamber Players, 8 p.m. April 23.

The series will conclude with a "Gala Evening of Song" at 8 p.m. on May 13.

All concerts in the Bryan series are free.

The recital hall was named to honor Bowling Green residents Dorothy and Ashel Bryan, recognizing their active support of music and the arts at the University, including a major gift to the new Musical Arts Center.

Third World Theater to hold auditions

The Third World Theater will hold auditions for three new plays from 7-10 p.m. Dec. 3 and 4 in 405 University Hall.

Actors, singers, dancers and musicians are being sought for the productions, two of which have been written by graduate students Harmon Watson and Mario Garcia.

The third play was written by John Scott, University playwright-in-residence.

News Review

Researcher observes hearing program

Andree Gendron, a representative of the Montreal Institute for the Deaf, visited the campus Nov. 14 as part of a year-long study of deaf education programs in the United States.

The Montreal Institute is preparing to reorganize as a Supra Regional Center on Deafness to serve the western half of the province of Quebec.

Gendron, who has been appointed coordinator for the training and improvement in hearing-impaired programs for the center, is spending this year visiting all the important centers on deafness in the United States. Bowling Green's was the first American program she surveyed.

Funds donated to accounting dept.

Nearly \$10,000 in funds for new scholarships and the support of activities in the accounting and management information systems department has been donated to Bowling Green this fall.

The awards include more than \$3,000 from the Ohio Society of Certified Public Accountants and more than \$6,000 from four of the nation's "big eight" CPA firms.

In addition, four public accounting firms have supported the department.

Publications study group to report this month

The Student Publications Ad Hoc Study Committee, commissioned by President Moore to study financial and policy-related issues associated with student publications, will make its recommendations sometime this month, according to John Huffman, journalism, chair of the committee.

The committee is charged with determining an adequate range and source of financial support for student publications, clarifying their role, reviewing the role and structure of the Publications Committee, assessing the role of advisers for student publications and reviewing the philosophical and legal bases for student publications.

Members of the committee are Adam Hammer, representing the Graduate Student Senate; Christopher Geib, representing the Student Government Association; Nancy Wygant, counseling and career development, chair of the Committee on Committees of the Faculty Senate; Bill Reynolds, education, vice chair of the Faculty Senate; Gardner McLean, News and Photo Services, and Myron Chenault, assistant vice president of institutional contracts.

Off-campus representatives on the committee are Tom Dawson, night editor of the Toledo Blade, and Kathy Lewton, director of public relations at Flower Hospital, Toledo, and national president-elect of Women in Communications, Inc.

Scholarships awarded in essay competition

Fifty high school students, their parents and teachers were invited to Bowling Green for an awards dinner Nov. 26 when winners of a state-wide

philosophy essay contest were announced.

The students, all semi-finalists in the contest, wrote articles on the topic "How ought a nation that cherishes democracy and individual initiative respond to an energy crisis?"

Six \$100 scholarships were awarded to the finalists in the contest, which was sponsored by the philosophy department with grants from the Anderson Foundation of Toledo and the Martha Holden Jennings Foundation of Cleveland.

RONALD PARTIN

Dr. Partin named programs coordinator

Ronald L. Partin, educational foundations and inquiry, has been appointed advanced programs coordinator in the College of Education.

Dr. Partin's duties in the half-time position will include coordinating advanced professional programs in education.

The advanced programs office provides support services to both faculty and students involved in post-graduate work, including student counseling, processing of advanced certification applications and maintaining records on advanced program students, both on and off campus.

Robert Early wins \$10,000 fellowship

Robert Early, creative writing, Steve Heller, a graduate student in creative writing, and two Bowling Green alumni have been selected to each receive \$10,000 fellowships by the National Endowment for the Arts.

They were chosen, based on writing samples, from 3,750 applicants to the fellowship program. There were 264 fellowship winners nationally.

Dr. Derrick seeks papers on family life

A call for papers pertaining to aspects of family life has been issued by Sara Derrick, home economics, president-elect of the Ohio Council on Family Relations.

The papers are to be presented at the council's annual meeting March 31 at Otterbein College, Westerville. Theme of the meeting will be "Families of the 80s: Focus on the Future."

Deadline for submission of the 100-word abstracts to Dr. Derrick, 309 Johnston Hall, is the first week of winter quarter.
